BOARD ELECTIONS

The GreyStone Power Nominating Committee has met and chosen incumbents David Hagenow, District 3, Douglas and Paulding counties; Billy Mayhew, District 5, Carroll and Douglas counties; and Lucy Andres, District 9, Cobb County, as their nominees for the GreyStone Power Board of Directors.

When asked why they would like to serve on the board, the nominees said:

“My desire is to make GreyStone the lowest cost and safest provider of electricity in Georgia. We must balance outstanding service with affordable rates for all of our members. By diversifying our sources of electrical energy and good budgeting, we can continue to provide safe, affordable energy,” says Hagenow.

“It is a true honor to serve on the board of GreyStone Power with other members that have the same goal of keeping GreyStone a leader in the electric utility industry. I will never lose focus on the fact that we serve on the board to represent each member of the co-op by maintaining low rates and excellent service,” says Mayhew.

“As a board member, I will ensure that GreyStone’s corporate vision and overall corporate strategy is maintained and improved. I will encourage GreyStone’s board to explore marketing measures and philanthropic activities as well as establishing corporate responsibility initiatives. My experience as an attorney and in governance, risk management and compliance will be an asset as a member of the GreyStone Board of Directors,” says Andres.

Members wishing to run for the board by petition must do so by July 4. Visit greystonepower.com for more information.

RESTORATION PROCESS

Step 1: Transmission Lines

Step 2: Substations

Step 3: Main Distribution Lines

Step 4: Tap Lines

When electricity is out, we do all we can to restore it as quickly as possible. GreyStone works around-the-clock during every outage to make that happen. But there are several priorities that can't be changed in order for the restoration process to work.
