PROVIDER OF CHOICE

GREYSTONE WAS SELECTED AS THE ELECTRIC PROVIDER OF CHOICE BY AUTOMANN, AN AUTO PARTS DISTRIBUTION COMPANY. AUTOMANN IS EXPECTED TO EMPLOY 150 PEOPLE AT THEIR STATE-OF-THE-ART FACILITY IN HIRAM.

SAVING ENERGY

The more you save on energy costs, the more money stays in your pocket. With some of the lowest-priced electricity in the state, according to the Public Service Commission's residential rate surveys at psc.ga.gov, one of GreyStone's goals is helping our members save money. Additionally, GreyStone offers rebates, energy-saving tools and tips at greystonepower.com/save-moneyenergy.

Save money by saving energy.

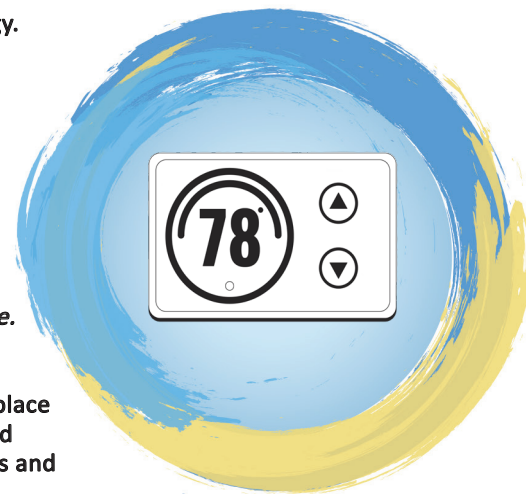

This is why the GreyStone Power Marketplace was launched. You can purchase energy-saving items like smart thermostats, LED lightbulbs, showerheads and more at greystonepowermarketplace.com.

Visit the GreyStone Marketplace around Memorial Day to find special deals on thermostats and flood LEDs.

ENERGY STAR-certified thermostats like you'll find in the Marketplace can save members on their power bills each month. One thermostat, the ecobee, uses advanced sensors to adjust for comfort when you're at home and savings when you're away. Ecobee claims it can save up to 26% annually on your heating and cooling costs.

During the summer months, the cost of air conditioning can significantly affect your electric bill. Heating and cooling often represent more than 50% of a home's energy expenses. GreyStone's energy experts recommend a thermostat setting of 78 degrees Fahrenheit during warmer months. Every degree below 78 in the summer can increase your bill 3%-5%.

GreyStone strives to help you save money by saving energy. That's making life better.
