Every Moment Counts

At GreyStone Power, we constantly strive to improve our service to members. Since the safety of our members is a top priority, we are proud to be an owner of EMC Security.

With security monitoring starting at \$16.95 a month, and 24-month same as cash financing on equipment for GreyStone members, there has never been a better time to protect your home and family. Plus, you can enjoy the added ease of bundling the cost on your GreyStone bill.

Time and time again, EMC Security receives stories and thanks from those they have safeguarded.

In one instance, EMC Security received an alarm. They alerted the homeowner that his alarm was going off due to a glass break detection unit at the back of his home. He decided to cancel the alarm without knowing what had transpired, blaming his dog for setting off the alarm.

Fortunately, nothing was taken, as the alarm scared off the intruder before he was even able to access the house. The homeowner's dog is still mildly upset for being blamed for the alarm event.

The customer was thankful for his service, and realized you can never trust your dog as a security system.

At GreyStone, we encourage our members to secure their homes and businesses with EMC Security, and protect what they value most. Give EMC Security a call at 770-963-0305 or visit www.emcsecurity.com
