## MAKING LIFE BETTER

Economic development is a major focus of any successful community. One way GreyStone Power makes life better for the members it serves is by promoting economic development.

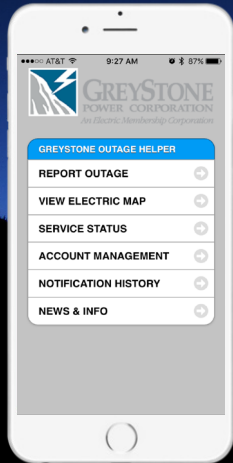

GreyStone executive staff members serve in various positions that focus on attracting healthy commercial and industrial businesses. President/CEO Gary Miller serves as treasurer and board member of the Douglas County Economic Development Authority board of directors. Vice President of Financial Services Kara Pearson currently chairs the Douglas County Chamber of Commerce, while Vice President of Corporate Services James Wright chairs the Paulding County Chamber of Commerce. A Commercial Marketing Department within GreyStone also works to bring positive economic growth in the service area.

One of the businesses GreyStone is pleased to serve is M&M Mars. Spokesperson Bob Turney expressed why the company chose GreyStone to provide its power. "In choosing a power supplier, we had certain needs. We run a huge refrigerated warehouse in Austell. The first and foremost issue is the dependability of the supplier. With product concerns, we can ill afford failures and a lack of power for any prolonged period of time.

"The second issue is the cost of service. Are our needs going to be met at a fair cost? In our evaluation we determined that GreyStone Power met both of these needs. We felt their size and flexibility enabled them to respond to emergencies in a timely manner. The cost of service was very competitive. We have been satisfied since our opening in May 2017," he said.
