December 2022

**GREYSTONE**  
POWER CORPORATION  
*An Electric Membership Corporation*

## BROADBAND *Access*

GREYSTONE IS LAUNCHING A PILOT PROJECT TO PROVIDE ACCESS TO HIGH-SPEED INTERNET TO OVER 5,000 UNSERVED AND UNDERSERVED LOCATIONS. THE CO-OP IS FORMING A SUBSIDIARY TO OPERATE THE FIBER NETWORK, AND CONSTRUCTION WILL BEGIN NEXT YEAR. THE COSTS OF THE AFFILIATE WON'T IMPACT ELECTRIC RATES. LEARN MORE AT [GREYSTONEPOWER.COM](http://GREYSTONEPOWER.COM).

## HOLIDAY CLOSINGS

GREYSTONE WILL BE CLOSED ON THESE DATES IN OBSERVANCE OF THE FOLLOWING HOLIDAYS: DEC. 23 AND 26, CHRISTMAS; AND JAN. 2, NEW YEAR'S DAY. ENJOY THE HOLIDAYS!

## NEW MEMBER PROGRAM

GreyStone continually works to meet the needs of our members. Some are making the jump to or are interested in electric vehicles (EVs).

With that in mind, your co-op has launched GO, an electric vehicle program. This increasingly popular form of transportation opens the doors for many questions, and we want to help make the transition as seamless as possible from the utility side.

EV owner and Vice President of Corporate Services James Wright says, "Just like G.I. Joe said, 'Knowing is half the battle.' "

In the October Power Line Podcast, Wright discusses what it is like driving an EV, the learning curve for those new to this form of transportation and why GreyStone wanted to launch GO.

Residential Energy Services Manager Drew Hook put it this way: "It is an individual buyer's decision, and some people's need to transition to an EV is going to be faster than others."

With that in mind, GreyStone offers members a wide range of information at [greystonepower.com/ev](http://greystonepower.com/ev). Also, our Residential Electric Vehicle rate is featured there for members interested in seeing how the rate could benefit them.

It does not stop there though. Your co-op also offers discounted Level 2 chargers at [greystonepowermarketplace.com](http://greystonepowermarketplace.com).

Do you have questions, or are you interested in EVs and want to know more? At GreyStone, we encourage members to call us before they purchase an EV. This way, you have the information you need to decide if an EV is right for you.

VISIT US AT [WWW.GREYSTONEPOWER.COM](http://WWW.GREYSTONEPOWER.COM) TO LEARN MORE!

In those rare times your power goes out, you can now receive text updates from GreyStone. To sign up, text ENROLL to 81492. Giving you up-to-date information is another way GreyStone makes life better.

Message and data rates may apply. For members who wish to opt out of our texting service, text STOP to 81492 to opt out.

Each year, GreyStone employees participate in service projects. They can volunteer 8 hours each. We call it GreyStone Gives. One annual event that employees enjoy is sending Christmas cards to the troops.

## Power Restoration Process

Step 1: Transmission Lines

Step 2: Substations

Step 3: Main Distribution Lines

Step 4: Tap Lines

When electricity is out, we do all we can to restore it as quickly as possible. GreyStone works around-the-clock during every outage to make that happen. But there are several priorities that can't be changed in order for the restoration process to work.
