August 2022

**GREYSTONE**  
POWER CORPORATION  
*An Electric Membership Corporation*

## STORM Info

WHEN STORMS COME, THEY BRING THE POTENTIAL FOR POWER OUTAGES.

ALTHOUGH THE WEATHER IS OUT OF HUMAN CONTROL, LEARNING ABOUT THE OUTAGES IS NOT. GREYSTONE WILL NOW TEXT MEMBERS INFORMATION IF THEY EXPERIENCE POWER INTERRUPTIONS. ALSO, YOU CAN VISIT OUR FACEBOOK PAGE DURING LARGER STORMS TO GET UPDATES AS WELL:  
[FACEBOOK.COM/GREYSTONEPower](https://www.facebook.com/greystonepower).

## CLEARING VEGETATION

GREYSTONE MAINTAINS OUR INFRASTRUCTURE TO PROVIDE THE RELIABLE POWER YOU HAVE COME TO EXPECT. CLEARING OUR RIGHTS-OF-WAY IS ONE BIG PIECE. BY KEEPING VEGETATION AWAY FROM OUR LINES, YOUR CO-OP MITIGATES OUTAGES THAT COULD OTHERWISE OCCUR.

## SAVE ENERGY, SAVE MONEY

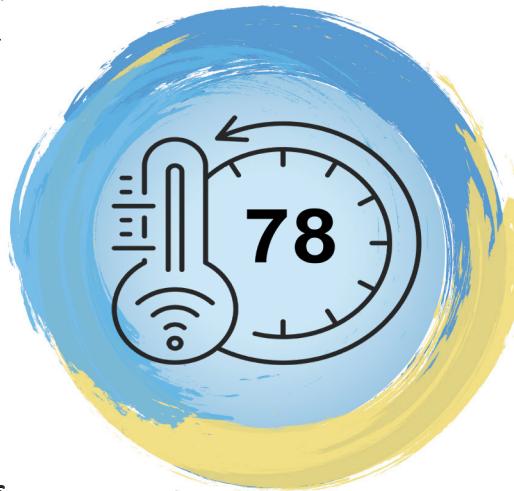

Everyone likes to have more money in their pocket. At GreyStone, we do all we can to help members save money.

One way we accomplish this is by having some of the lowest-priced electricity in the state, according to the Public Service Commission's rate surveys at [psc.ga.gov](http://psc.ga.gov).

As a member, you can learn energy-saving tips as well. Visit [greystonepower.com/save-money-energy](http://greystonepower.com/save-money-energy) to learn about rebates, energy-saving tools and more.

Members save money by saving energy. That is why we launched the GreyStone Power Marketplace.

You can purchase energy-saving items like smart thermostats, LED lightbulbs, showerheads and more at [greystonepowermarketplace.com](http://greystonepowermarketplace.com).

These ENERGY STAR-certified thermostats can save members on their power bills each month. One thermostat, the ecobee, includes enhanced energy savings with intelligent features for comfort when you're in the office or home, and savings when you're away. Ecobee claims it can save up to 23% annually on your heating and cooling costs.

During the summer months, the cost of air conditioning can significantly affect your electric bill. Heating and cooling often represent more than 50% of a home's energy expenses. GreyStone's energy experts recommend a thermostat setting of 78 degrees Fahrenheit during warmer months. Every degree below 78 in the summer can increase your bill 3%-5%.

Saving you money. Now that is making life better.

VISIT US AT [WWW.GREYSTONEPOWER.COM](http://WWW.GREYSTONEPOWER.COM) TO LEARN MORE!

# YOU'RE WHY

**You're why** safely delivering reliable, affordable electricity to local homes and businesses is at the heart of everything we do.

**You're why** GreyStone Power educates community members of all ages about how to be safe around the power delivery system. That includes setting up safety demonstrations at area schools and community events.

Your electric cooperative genuinely cares about the people it serves.

**You're why GreyStone Power works to make life better.**

GreyStone was recently named the Partners In Education Partner of the Month by the Paulding County Board of Education.
